#### **(h) Non-Disclosure Policy**

(i) Each Member agrees that it will maintain all Confidential Information in confidence with at least the same degree of care that it uses to protect its own proprietary material and in no event with less than reasonable care. Each Member agrees that it will not disclose, nor will it assist or allow any third party to disclose any Confidential Information, except: (a) as otherwise may be required by law or legal process, including to legal and financial advisors in their capacity of advising a party in such matters; (b) during the course of litigation, so long as the disclosure of such terms and conditions are restricted in the same manner as is the confidential information of other litigating parties, (c) in confidence to employees on a need to know basis within a Member or an Affiliate thereof, (d) in confidence to its legal counsel, accountants, banks and financing sources and their advisors solely in connection with complying with financial transactions, and (e) in confidence to its legal counsel in connection with providing legal advice; provided that, in (b) through (f) above (i) the disclosing party shall use all reasonable legitimate and legal means available to minimize the disclosure to third parties, including without limitation seeking a confidential treatment request or protective order whenever appropriate or available; and (ii) the disclosing party shall provide the Board of Directors, or the relevant Member, as the case may be, with at least 10 days prior written notice of such disclosure. Each party shall mark any copies of Confidential Information it makes "confidential" or with a similar legend. Unless the parties agree otherwise, this obligation of confidentiality will expire three (3) years after the date of disclosure of Confidential Information.

(ii) Notwithstanding anything herein to the contrary, any party may use Residuals for any purpose, including without limitation use in development, manufacture, promotion, sale and maintenance of its products and services; provided that this right to Residuals does not represent a license under any patents, trademarks or

copyrights of the disclosing party. The term "Residuals" means any information retained in the unaided memories of the receiving party's employees who have had access to the disclosing party's Confidential Information in connection with such party's participation in the Corporation. An employee's memory is unaided if the employee has not intentionally memorized the Confidential Information for the purpose of retaining and subsequently using or disclosing it.

- (iii) The terms of confidentiality hereunder shall not be construed to limit any Member's right to independently develop or acquire products or technology, including similar or competing products or technology, without the use of the Corporation's or another Member's Confidential Information and without breach of the terms of the Member Agreement.
- (iv) The Members agree that Contributions, Draft Deliverables and minutes of meetings of the Corporation or a Work Group (except for portions thereof which intend to disclose Confidential Information to the public) shall be considered non-confidential and non-proprietary information, regardless of any markings to the contrary included thereon. Notwithstanding the non-confidential status of such materials, the Members shall not publish or distribute Contributions of any other Member, Draft Deliverables or meeting minutes to any third party, except (a) with the prior written consent of the applicable Member; (b) as otherwise may be required by law or legal process, including to legal and financial advisors in their capacity of advising a party in such matters; (c) during the course of litigation, so long as the disclosure of such terms and conditions are restricted in the same manner as similar information of other litigating parties, (d) to employees on a need to know basis within an Affiliate of a Member under similar nondisclosure obligations or (e) to its legal counsel, accountants, banks and financing sources and their advisors under similar non-disclosure obligations, solely in connection with complying with financial transactions; (f) in confidence to its legal counsel in connection with providing legal advice. The obligation not to publish or distribute set forth above shall not prevent any Member from implementing, or incorporating or otherwise using or distributing the contents of any of its Contributions in any of its products and services and documentation, and the marketing, sale or distribution of such products, services and documentation shall not be a violation of the obligations in this section. For the avoidance of doubt, nothing in this paragraph shall prohibit a Member from disclosing its Contributions to any third parties including but not limited to working groups of the ISO/IEC JTC1 SC29 WG11.

**Licensing declaration:**

The Patent Holder believes that it holds granted and/or pending applications for patents, the use of which would be required to implement a Ultra HD Forum Deliverable and hereby declares, in accordance with the IPR Policy of the Ultra HD Forum, that (check one box only):

- 1. The Patent Holder is prepared to grant a free of charge license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and under other reasonable terms and conditions to make, use, and sell implementations of the above document.

Negotiations are left to the parties concerned and are performed outside the Ultra HD Forum.

*Also mark here  if the Patent Holder's willingness to license is conditioned on reciprocity for the above document.*

*Also mark here  if the Patent Holder reserves the right to license on reasonable terms and conditions (but not free of charge) to applicants who are only willing to license their patent claims, whose use would be required to implement the above document, on reasonable terms and conditions (but not free of charge).*

- 2. The Patent Holder is prepared to grant a license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and on reasonable terms and conditions to make, use and sell implementations of the above document.

Negotiations are left to the parties concerned and are performed outside the Ultra HD Forum.

*Also mark here  if the Patent Holder's willingness to license is conditioned on reciprocity for the above document.*

- 3. The Patent Holder is unwilling to grant licenses in accordance with provisions of either 1 or 2 above.

In this case, the following information must be provided to the Ultra HD Forum, as part of this declaration:

- granted patent number or patent application number (if pending);
- an indication of which portions of the above document are affected;
- a description of the patent claims covering the above document.

Free of charge: The words "free of charge" do not mean that the Patent Holder is

waiving all of its rights with respect to the essential patent. Rather, “free of charge” refers to the issue of monetary compensation; *i.e.*, that the Patent Holder will not seek any monetary compensation as part of the licensing arrangement (whether such compensation is called a royalty, a one-time licensing fee, etc.). However, while the Patent Holder in this situation is committing to not charging any monetary amount, the Patent Holder is still entitled to require that the implementer of the above document sign a license agreement that contains other reasonable terms and conditions such as those relating to governing law, field of use, reciprocity, warranties, etc.

**Reciprocity:** As used herein, the word “reciprocity” means that the Patent Holder shall only be required to license any prospective licensee if such prospective licensee will commit to license its essential patent(s) or essential patent claim(s) for implementation of the same above document free of charge or under reasonable terms and conditions.

**Patent:** The word “Patent” means those claims contained in and identified by patents, utility models and other similar statutory rights based on inventions (including applications for any of these) solely to the extent that any such claims are essential to the implementation of the same above document. Essential patents are patents that would be required to implement a specific Ultra HD Forum Deliverable.
